

GLO

A red-toned illustration of a globe on a bridge structure over a city, with a ship on top of the globe. The globe is the central focus, showing continents and oceans. It is supported by a complex, multi-tiered bridge-like structure with arches and walkways. Small figures of people are visible on these walkways. In the background, a city with various buildings and a river is visible. A small sailing ship is perched on top of the globe. The sky is filled with clouds.
